MUSLIN PRODUCTS

Muslin is a breathable and skin-friendly fabric crafted from 100% organic cotton. Woven with premium 40/1 Compact Combed yarn, our muslin fabrics allow air circulation to help prevent sweating, ensuring comfortable use throughout all seasons. Thanks to their strong stitching, our muslin products retain their shape even after repeated washes.

Our home textile collection made from muslin includes quilts, duvet covers, bedspreads, towels, and bathrobes. We also offer ultra-soft muslin items specially designed for babies, making them ideal for delicate skin.

We provide muslin fabrics in a variety of options including patterned, double sided, and solid colors—allowing great flexibility in production. Upon request, we also produce custom-made items in specific colors. In addition to fabric sales, we have full production capabilities for all types of home textile products made from muslin.

**WE OFFER CUSTOM MANUFACTURING TAILORED
TO YOUR SPECIFIC NEEDS, INCLUDING DIFFERENT FABRIC WEIGHTS,
DIMENSIONS, COLORS,
AND OTHER REQUESTED FEATURES.**
